

# Easter Glasses

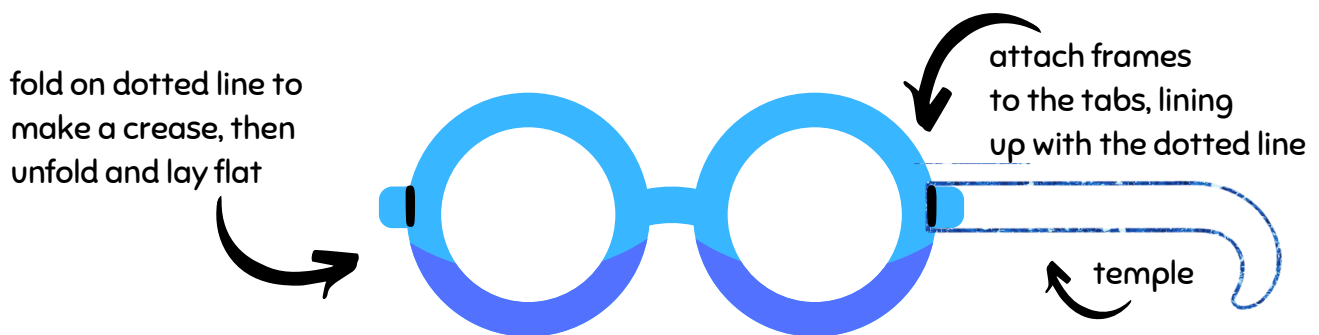

Print out the Easter Glasses Template.

Choose the glasses you would like to make and cut out all the pieces.

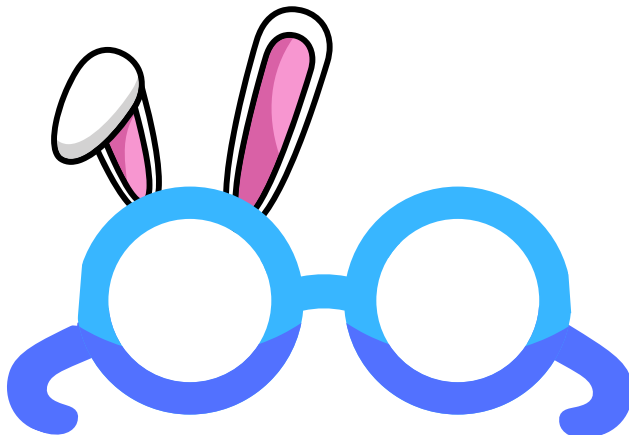

Next, fold the glasses frames on the dotted lines to make side tabs where you will then attach the temples (the 'arms' of the glasses). Attach with glue, tape or a stapler. Decorate your Easter Glasses with the Extras on the next page!

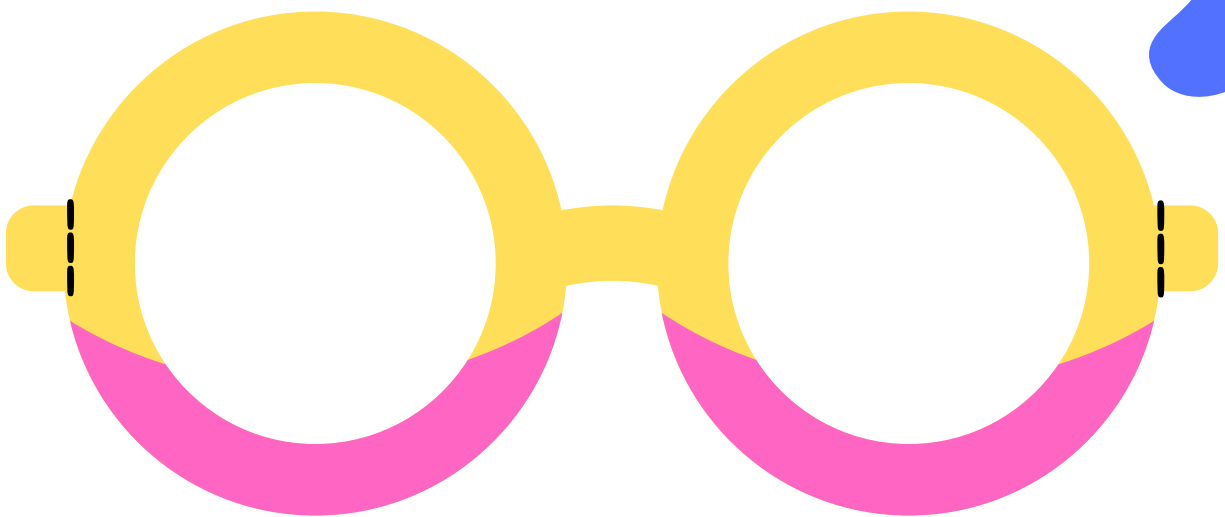

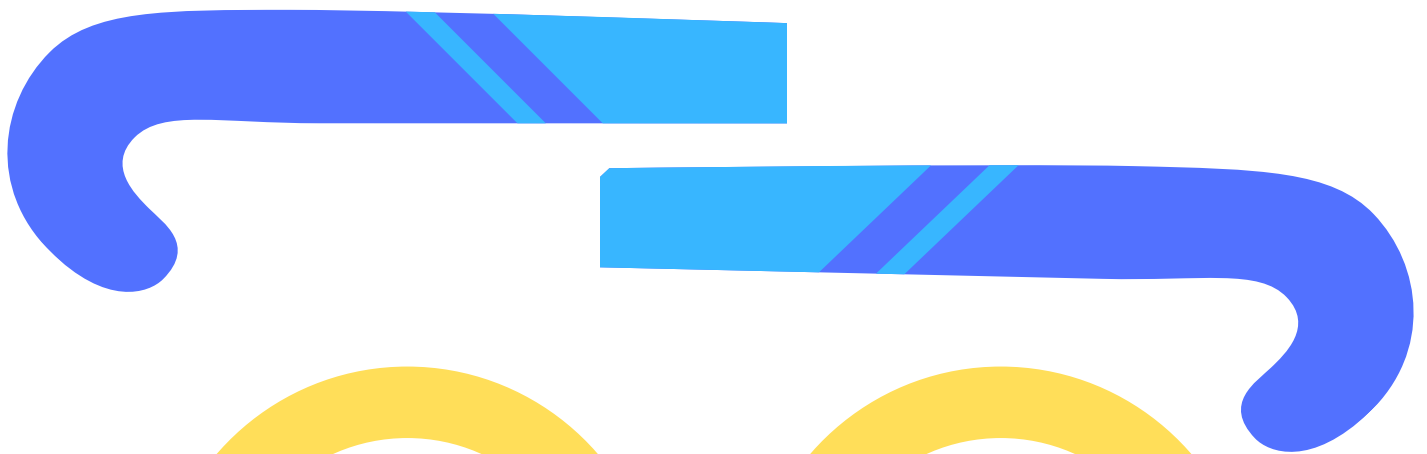

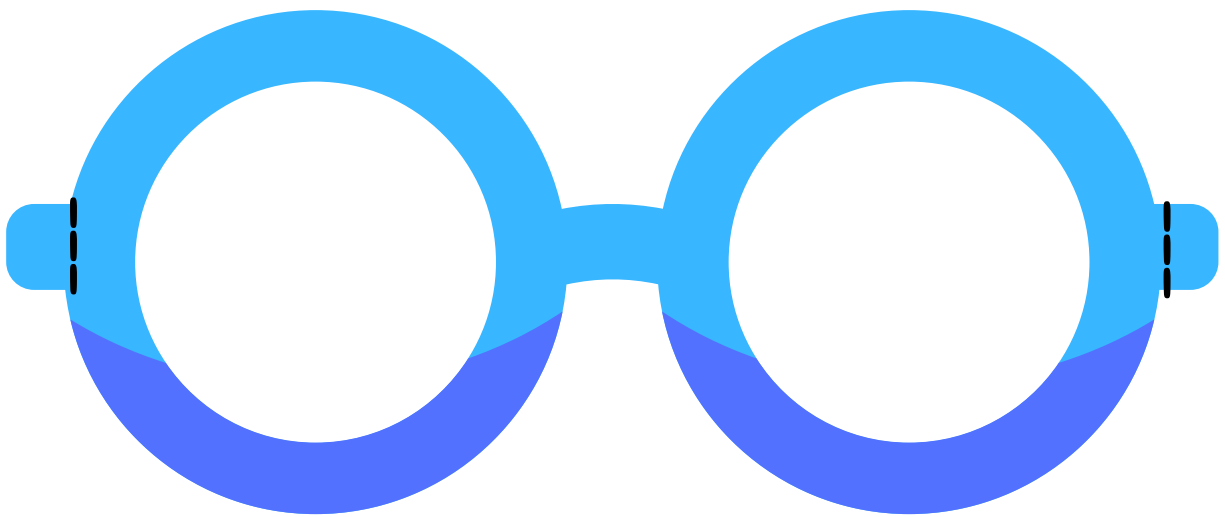

This craft works best when printed out on A4 size (or Letter Size) cardboard stock or thicker paper if you have it. If not, go ahead with regular paper and then trace the template onto a thin piece of cardboard from an old tissue or cereal box. If using heavier paper, you may also want to try adding glitter, small pompoms or other little doodads to your glasses!

Choose your favorite Extras on the next page and attach to your Easter Glasses!

If you have colored cellophane paper or transparency film try using it for the 'lenses' of your glasses by carefully gluing to the backs of the glasses frame. Be careful not to use too much glue!
